Software Design feedback Thursday, March 26, 2020 2:35 PM	
Global:	
Reference!	
8 Work done	on Code design, modules, modes, prolocols, No festing ?
, english	
Code des am:	
	Pangrage - add needel answers  formatting: use enumerate
Programm. Meg	coles - testing, code management (versionning), "peer review
software bt	uctura -> what functions? med high-level overview
Modules:	
	-> me ed more detail  -> which commands  -> sem sors  -> bys ?
Hocks:	- remove 'why?'  - Initial tests on EPS, cory, ADCS  La how ??? -= test plan
	-> Survival: complete list of conditions  -> Thrust: wrong, no telecommands during thrust (probably)  -> compare with other satollites !!! Sources
	Choose datalink  thoose modulation (physical)  thoose network layer  those application layer protocol
